

NORTHLIFT HYDRAULIC POWERPACK HPP360

A diesel hydraulic power pack especially developed for the aquaculture sector. The NorthLift Hydraulic PowerPack HPP360 gives up to 360 liters/minute at 350 bar and is powered by a Cummins PSB 6.7 Tier III, 6,7 liter, 153 kw diesel turbocharged and after cooled engine. It is equipped with twin Rexroth Axial piston variable pumps enabling twin hydraulic circuits. A variable pump with axial piston rotary group in swashplate design for hydrostatic drives in open circuit. Encapsulated in a stainless-steel cover to protect it from the elements. The NorthLift HPP360 has an integrated hydraulic oil tank of 720 litres and uses an external diesel supply. Built in twin return hydraulic filters and is controlled by a DSEE 400 module.
