

## CARAPAX MODULAR BARGE 120

The Carapax Modular Barge has been developed for the aquaculture and marine construction sector to meet a need for economical easily transportable modular barges. The modular barge comes with a standard length of 11,8 meters and a standard width of 2,2 meters. The depth comes in two options - 0,8 or 1,2 meters. Deck plating, side and bottom shell consists of fully double welded 8mm sheets. All surfaces are shot blasted according to standard SA2,5, then painted with two layers epoxy coating in total 2x 150 microns. Bottom is painted with an additional 60 microns copper based bottom paint. Comes with a variety of additional options.
